Please join us for a fun-filled day of golf at Beaver Meadow, while supporting a treasured city resource that creates opportunity, connection, community and health benefits for residents of all ages.

Our organization is providing golf equipment, instruction, access to the course and more for youths and beginner golfers.

We are also partnering with the golf course to help cover expenses of projects to improve the golf course and the facility, with the goal of helping alleviate the need for city tax dollars to subsidize the course.

Beaver Meadow has long been a staple amenity for the city of Concord. The increased costs of land, labor, equipment, chemicals and more create higher and higher operating costs for the course. You can help us to keep the course accessible and affordable to all.

Thank you for your support!
